

Agility

Smart, responsive fit out solutions

Fit out projects under 50,000 sq ft often require smart, responsive, fast-moving solutions. They also require a different fit out mindset – one that's focused on a dynamic response and an exceptional customer experience centred on minimising the impact to your business.

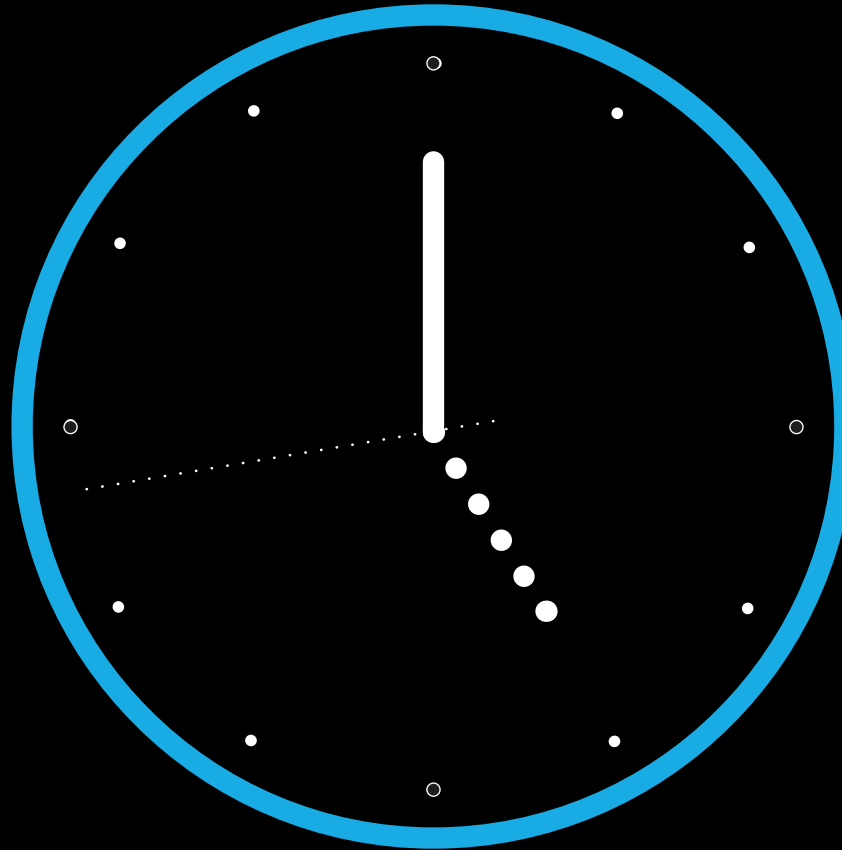

We are Agility

ISG is committed to putting customers at the heart of everything we do and this is why we have a highly specialised Agility team. Devoted specifically to smaller projects, our Agility team delivers smart, efficient solutions to businesses undergoing change.

Anytime projects

Our Agility team is just that – agile, quick to mobilise, and responsive. Whether we are delivering complex office fit outs, rolling out leisure frameworks, or being on call for your urgent and important requirements, we believe nothing's too small when it comes to meeting the needs of our clients.

What this means for you:

- Quick mobilisation to any of your business locations
 - Expert, reliable, trusted teams who adapt to your project
 - Brand ambassadors who respond to your company ethos
-

A man in a dark suit, white shirt, and dark tie with small white dots is giving a thumbs up with both hands. He is looking slightly to the right of the camera with a neutral expression. The background is a bright, out-of-focus window.

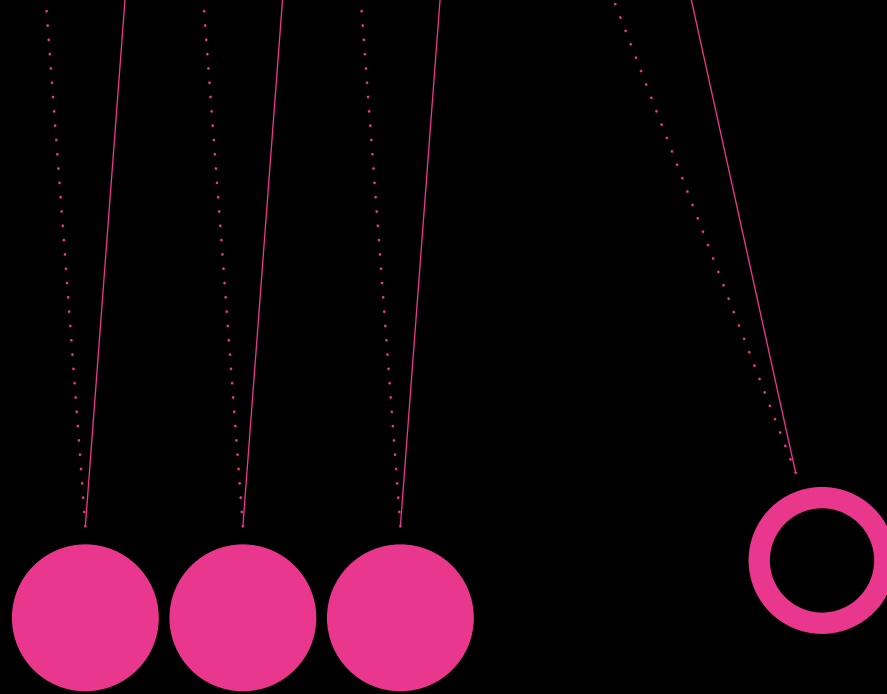

“We make sure we fully understand what your business wants to achieve on each of your projects. ISG’s Agility team works around you to respond quickly and provide a high-quality, expert job focused on minimising the impact to your business.”

A thick, bright blue diagonal line starts from the top left and extends towards the bottom right, partially overlapping the text area.

Managing Director, Agility

Everyday service

Fit out projects are personal. They can have a profound impact on your people and business. As one of the UK's favourite fit out contractors, we can be trusted to remove any disruption to your business while we deliver. We also know that these projects have important reputational implications for the consultant or customer in charge. We understand this, and as a result every member of our Agility team strives to enable a friendly work environment built on respect, accountability and trust.

What this means for you:

- A project team integrated into your business
 - Clear communication to ensure smooth delivery
 - Developed understanding of your business sector
-

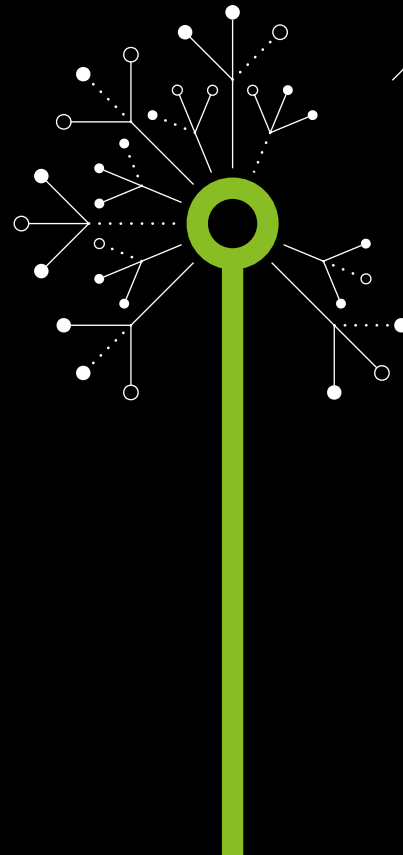

A man in a pink shirt is pointing at a whiteboard in a meeting. The whiteboard has some text and diagrams on it. Another man in a white shirt is visible in the foreground, looking towards the whiteboard. The background shows a wall with several framed pictures or documents.

“ISG’s committed and proactive approach throughout the tight programme ensured that every key milestone was met.”

Edan Etgar
Building and Service Manager, Ferrero

Forever focus

We are passionate about putting customers at the heart of everything we do. Our Agility offer enables a deeper understanding of your business because our teams often work around your employees and customers. This means we can be even more solutions-orientated and more collaborative. In return, we are rewarded with clients and consultants who come back to us time and again, and a unique perspective that means we can provide insights to help you build better for the future.

What this means for you:

- Flexible workspaces to adapt to your business needs
 - Honest, insightful discussion based on future-proofing your business
 - Advice on technology insights crucial to your industry sector
-

“Customers’ property decisions are increasingly driven to improve their agility and to stay one step ahead of technology... We are committed to making sure that your new space is agile, flexible and built to withstand whatever happens to your business in the future.”

Philippa Lean
Head of Business Development

Our clients

The Agility team works with some of the world's leading names in the legal, finance, technology and media sectors, as well as in hospitality, leisure and education.
